Subject: Attendance List

---

Catherine,

1. My attendance list of the May 19-21, 1999 Perchlorate Stakeholders Forum is missing page 16 (it has a duplicate page 21 instead). Could you please fax me a copy of page 16 to 202-333-2239. In particular, I am looking for Brenda Pohlman's telephone number. Could you please have someone telephone that in to me at 888-362-5266 (Toll free) or 202-333-2364. Thanks.

*done  
7/27*

2. Thank you for letting me know that Annie was on vacation through July 9th and unable to send the February materials out on June 18th as she had planned to before leaving for vacation. She has now informed Peter that she will have the materials out by July 30th so that you can then finalize the documentation for the February expert peer review meeting.

*A* I presume that you have already received from Peter Grevatt a copy of the Van Vleet (Thyroid, JAN 1999) which Dr. Zoeller had flagged to the committee's attention and which we had submitted to the record.

*double-check.*

I look forward to being able to put the February phase of this project to rest and focus on the information needs of EPA for September and of the external peer review committee for spring 2000.

Cordially yours,

Steve Lamm
